2007 State Convention  
 Texas LULAC  
 Resolution

Young Adults Resolutions

Whereas, LULAC pursues the protection and promotion of health for LULACers,

Whereas, LULAC Young Adult members need health care advocates from our state and national boards,

Whereas, LULAC Young Adult Members across the state are resorting to remedial or no medical assistance and often seeking medical treatment and medication from across the border,

Whereas, the LULAC Young Adults of Texas met at the Annual Young Adult Conference on February 17, 2007 in Austin, Texas and passionately voted to support the following,

Therefore, be it resolved that we move to assist the Young Adults across Texas and submit the following to the National Convention:

- \*That LULAC advocate the inclusion of a health insurance package for all college and university students (for Latino/students/low income)
- \*That LULAC advocate for the expansion of eligibility of the Children's Health Insurance Program to include all college student other eligible
- \*That LULAC investigate on-campus health care plans that often charge exorbitant fees but provide minimal services.
